

News Release

(HOLDREGE, Neb.) -- The Chipper Co. LLC, in cooperation with The Central Nebraska Public Power & Irrigation District, will be completing a pavement project near The Nautical Rose at Johnson Lake that is partially funded by CNPPID Lake Improvement Funds.

For approximately the next three weeks, it is expected that the public boat ramp located near The Nautical Rose and Lakeshore Marina will be closed in order to complete the concrete paving project. Once completed, the newly paved area will greatly contribute and enhance public access to the boat ramp and businesses in the area.
